

# Mad Sounds (Live At Best Kept Secret Festival)

## Arctic Monkeys

Mad sounds in your ears, they make you feel alright  
They bring you back to life  
Mad sounds in your ears, they make you get up and dance  
They make you get up  
Yeah they make you get upLove buckles under the strain of those wild nights  
Run but you cannot hide  
Mad sounds in your ears, they make you get up and dance  
They make you get up  
All night long they reappear  
They make you get up and dance  
Yeah they make you get upSuppose you've gotta do what you gotta do  
We just weren't feeling how we wanted to  
You sit and try sometimes but you just can't figure out what went wrong  
Then out of nowhere somebody comes and hits you with an  
Ooh la la la, ooh la la la  
Ooh la la ooh  
Ooh la la la, ooh la la la  
Ooh la la oohYou got those mad sounds in your ears to make you get up and dance  
Mad sounds in your ears, they make you get up and dance  
They make you get up
