

# Garden Grove

## Teen Daze

Thought the grass into the garden grove  
I've come to watch the flowers as they grow  
    Another chance to feel how little I know  
And another morning spent not feeling alone  
Thought the grass into the garden grove  
I've come to watch the flowers as they grow  
    Another chance to feel a little, I know  
And another morning spent not feeling alone
