Some Girls

candice accola

My baby drives a car
He calls me when he wants
I don a pair of zip-up boots
I go to shake my hair out loose
I never take my eyes off you
Oh no no, oh no no
No I don't think so
Some girls always get what they wanna, wanna
All I seem to get is the other, other
This won't last for long, not forever
And the champagne makes it taste so much better better
Some girls always get what they wanna, wanna
All I seem to get is the other, other
Dreams of number one last forever
It's the only way to make you feel better
Foot loose and fancy free
My baby waits for me
He likes to put his own red coats on
He likes to tell me the things he's done
Such a strange way of having fun
Oh no no, oh no no
And away we go
Some girls always get what they wanna, wanna
All I seem to get is the other other
This won't last for long, not forever
And the champagne makes it taste so much better, better
Some girls always get what they wanna, wanna
All I seem to get is the other, other
Dreams of number one last forever
It's the only way to make you feel better
You made a promise to make me a star
You made a promise, you'll get to the top
You made a promise to make me a star
You made a promise, you'll get to the top
Some girls always get what they wanna, wanna
All I seem to get is the other other
Dreams of number one last forever
It's the only way to make you feel better
