

# Blues Mary

## Gear Daddies

First round, fate is grinning  
You run straight down the line  
The last round, your bladder's giving  
You're under the table this time

The first time I saw your sunshine  
I knew that you'd always be sad  
Your new clothes are wearing thin, girl  
I guess I don't feel so bad

### CHORUS

It's only blues, Mary  
It's only blues, Mary  
It's only blues, Mary  
For a while don't smile and say that to me

Don't smile and say you're gloomy  
Turn your face up towards mine  
I'm sure that suburb apartment is roomy  
If you choke in the city, that's fine

### REPEAT CHORUS
