This Is My Time

Culture Beat

Text: Frank Blow
Music: Frank Blow
how many days, how many nights
I waited so long until they switched on the lights
I'm going out
they're screaming for me
now I am right where I wanna be
I'm so excited just to show
you everything I have to show - oh baby
and when the crowd is getting high
I feel like I could touch the sky - oh baby
Chorus:
this is my time
this is my time
this is what I've been waiting for
this is my time
this is the place
it's my time
this is my time
this is my time
this is the key to unlock the door
this is my time
this is the place
it's my time
I will be queen, you will be king
they're throwing us kisses
when we start to sing
I wanna rule the world just for one day
now you'll listen to the things I gotta say
I won't be good I'll be the best
and I am gonna beat the rest - oh baby
and I want all of you to know
it's what I do and where I go - oh baby
Chorus
Chorus
