

# The Saviour

## Fatal Smile

I am The Saviour! I am your God, I take you up when you are down  
Your heart, your soul, I am your mind control  
You need to believe, just close your eyes I'll make you see I'm not your guardian angel  
I addict your life with danger  
You think... I am The Saviour, the only one (the only one)  
Sent down from heaven (sent down to you)  
No, I'm your damage done I protect and serve, I'm all your prayers that have been heard  
I'm true, I'm real, your liar, I'm your dream  
What's right, what's wrong,  
when you are weak I'll make you strong I'm not your guardian angel  
I addict your life with danger  
You think... I am The Saviour, the only one  
Sent down from heaven  
No, I'm your damage done (Guardian Angel)  
You think... I am The Saviour, the only one  
Sent down from heaven  
No, I'm your damage done  
I am The Saviour, you're the chosen one  
Sent down from heaven  
No, I'm your damage done
