No View Is True

Taproot

We don't have to see eye to eye
As long as we get along
We don't have to head anywhere
As long as we took [Incomprehensible]
Riding different strokes for different fountains
I've found no religion but I still have faith
I've made some decisions but I'm following my fate
I'm not so indifferent
We don't have to feel an 'Ever and ever'
We've taken the endless day
We don't have to sense 666
But we can manifest hate
Laughing different quotes from different jokes and
I've found no religion but I still have faith
I've made some decisions but I'm following my fate
I'm not so indifferent, everyone is the same
We're all just opinions that extinguish the rains
No view is true
No view is true
No view is true
No view is true
No view is true, true
No view is true, true
[Incomprehensible]No view is true
I've found no religion but I still have faith
I've made some decisions but I'm following my fate
I'm not so indifferent, everyone is the same
We're all just opinions that extinguish the pain
No view is true
No view is true
No view is true
