

# Can't Say Love

Glenn Lewis

Girl I can't fight no more,  
I'm not being complete  
What's the word of love,  
Not when meet, nothing need  
Gotta get it back somehow,  
I'm guessing expiration date  
Is come and gone, on us baby, yeah

No matter who I'm with, what's so crazy is  
Having out of love, couldn't say it since  
I haven't said I love you to nobody  
I'll be happy when I'll can say it once again  
Give to you my heart, put it in your hand  
Until then I'll be quiet, oho  
See I can't tell someone something  
I don't feel to open up  
It's got to be real

I can't say love, not without you  
No, not that word, love  
Not without you  
Say I like maybe, I care maybe  
I feel deeply, but no, not love  
No, not without you  
I can't say love, no not without you  
Can't say that word, love  
Not without you  
Say I like maybe, I care maybe  
I feel deep, but no, not love  
Love's only for you girl

How we ended up apart, I try to make sense of it then I stop  
Because of you I know it feels like impossible for me to find that twice  
Compared to you baby, you're the flyest young lady alive  
See I always be missing your vibe  
Girl I'm tired of living a lie

No matter who I'm with, what's so crazy is  
Have been out of love, couldn't say it since  
I haven't said I love you to nobody

I'll be happy when I'll can say it once again  
Give to you my heart, put it in your hand  
Until then I'll be quiet, oh  
See I can't tell someone something  
I don't feel to open up  
It's got to be real

I can't say love, not without you  
No, not that word, love  
Not without you  
Say I like maybe, I care maybe  
I feel deeply, but no, not love  
No, not without you  
I can't say love, no not without you  
Can't say that word, love  
Not without you  
Say I like maybe, I care maybe  
I feel deeply, but no, not love  
Love's only for you girl

I can never tell a girl, that that's love when I know it's not  
I can see her probably care for a few, but with you I can't live without  
I need you, like my air girl, something I would never lie  
See the way I feel for you girl, don't never stop

I can't say love, not without you  
No, not that word, love  
Not without you  
Say I like maybe, I care maybe  
I feel deeply, but no, not love  
No, not without you  
I can't say love, no not without you  
Can't say that word, love  
Not without you  
Say I like maybe, I care maybe  
I feel deeply, but no, not love
