That Did It (feat. Tink)

Sleigh Bells

You's a cocky motherfucker
Heard you love to run your mouth
They put me on this track
'Cause they know I run this outta townSo if your head big then I aim at it
But chill with all of that talk
'Cause I go for mine like a 9 to 5
And I still ain't take a day offI been on fire like I am in hell
Bitches want out but I can't give em bail
Swear that I'm tired of hummin' they hit when I'm comin'
Like how she pull up with Sleigh BellsDon't be afraid now, what did you say now
All that talk, I'm in your face now
What's wrong, what's wrong
I thought you had thisYou, I thought
(That did it, that did it)
You, I thought
(That did it, that did it)In the time it took to take
A very deep breath
You were out of your depth
Out of your depthWho-o-o-oah
Who-o-o-oahYou want a real fight tonight
You're still livin' in your own world
The road isn't long, but it's winding
The future isn't bright, it's blindingBut a star is a medal on display
Always earned the hard way (hard way)
And other lies and other rhymes (other rhymes)
(Where did I put my keys?)
I don't know, I don't know
(Where did I put my keys?)You, I thought
(That did it, that did it)
You, I thought
You aced the test, but you failed the rest
That did it, that did itYou, you, ooooh
You, you, oooohIn the time it took to take
A very deep breath
You were out of your depth
Out of your depthSettle down with your infinite power
Settle down with your infinite power
Settle down with your infinite power
Settle down with your infinite powerHey, heyThat did it, that did it
