

Don't Hate Me

Rufio

Don't Hate Me
I remember when we would laugh all night
And nothing could stop us
Moments shared were picture perfect
Memories remain[chorus]
All I want is to be just friends
Understand, and don't hate her
Feelings change, there's no strength in me
I'm sorry, but my love for you is gone
My love is gone....Honesty is all
we make mistakes I know
And I knew something's wrong
I couldn't lead you on Well...I see you and me seperating for good
No more friends? This can't be...
My best friend's gone[Chorus]Honesty is all
We make mistakes I know
And I knew something's wrong
I couldn't lead you on Night is over
Orange haze has filled my eyes again
She's not perfect but I'm still feeling
Weak inside when she's around Don't Hate me x3
But we're all done x3[Chorus]
