

Heavy

The Glorious Sons

Come heavy or don't come at all
You leave your peace at home that's your call
It never paid to be merciful
Come heavy or don't come at all
Come heavy or don't come at all
Been here before and watched a better man fall
I smell the feel on you boy
Come heavy or don't come at all
I will put you down
I will put you down
I will put you down for king and for country
I will put you down
I will put you down
I will put you down if the grave's what your need
You ain't a comrade or a friend
I ain't a brother, I'm a means to an end
In times of war we live in hell
You can't trust a man in war with himself
I'll be the last breath you breath
I'll be the last man you'll see
I'm gonna cut you at the knees boy
Come heavy or don't come at all
I will put you down
I will put you down
I will put you down for king and for country
I will put you down
I will put you down
I will put you down if the grave's what your need
Are you ready
I'm coming heavy
Are you ready to let it all go
Are you ready
I'm coming heavy
Are you ready to let it all go
Come heavy or don't come at all
You leave your peace at home that's your call
It never paid to be merciful
Come heavy or don't come at all
I will put you down
I will put you down
I will put you down for king and for country
I will put you down
I will put you down
I will put you down if the grave's what your need
I will put you down
I will put you down
I will put you down for king and for country
I will put you down
I will put you down
I will put you down if the grave's what your need
I'm coming heavy, ah
I'm coming heavy, ah
I'm coming heavy
