Insurrection

Trivium

Bow not before his creation

These mortals: "man"

This act of insult

Breeds our discontent

He turned his back

On our loyalty

I will bring my insurrection

And a war upon heavenI will bring my insurrection

And a war upon heaven

Hell-fire be my destruction

For this war upon heavenForged from fire

I declare this war

A war against Heaven

I bring upon my scourge

Filled with hubris

A declaration of warIt is I who spawns this fury

Torches: ignite

Blaze is set to engulf all of which we hate

Storm in, eviscerate

Every motherfucker in our way

I will bring my insurrection

And a war upon heavenI will bring my insurrection

And a war upon heaven

Hell-fire be my destruction

For this war upon heavenForged from fire

I declare this war

A war against Heaven

I bring upon my scourge

Filled with hubris

A declaration of war2x

Ascend to the heavens

To destroy them all2x

Forged from fire

I declare this war

A war against Heaven

I bring upon my scourge

Filled with hubris

A declaration of war
