# It's Not Happening

## Late Night Alumni

The girls, the shape
And essence swirled
Ready to grow straight up
It's never soon enoughBut for me
It's not happening
Listen to me
It's not happeningThe girls, wired to rule the world
Needle-pointed eyes
They cut me down one sizeIt's time for a compromise
So we leave it undefined
They tell me to wait in line
Then speak an absent mindOh, it's not happening
Say you agree
It's not happening
Listen I plead
