Never Far Away

Jack White

Walking home to you
Walking home to you
I'm talking through my wounds that I'm bleeding out for you
Talking through my wounds
Walking home to youI listen when I can
I listen when I can
To this picture of you I carry in my hand
Lets me hear you say
You're never far awayAnd the dirt beneath my heels in the road
Obeys command to me and serves me as I go
And though it help to know you're never far away
I can't help wondering how you might feel about me todayAda let me know
Ada let me know
Will you want me back or is it better if I go
Will you want me back
Ada let me knowThat Carolina wind
That Carolina Wind
It blows in my eyes and makes me realize
The trouble that I'm in
That Carolina WindAnd the dirt beneath my heels in the road
Obeys command to me and serves me as I go
And though it help to know you're never far away
I can't help wondering how you might feel about me todayYou'll see me in a dream
You'll see me in a dream
You'll see me in a dream across a mountain stream
And you will hear me say
You're never far away
Never far away
Never far away
