Sunny As Hell

42 Decibel

If it was up to me, Iâ€™d say letâ€™s go down to the beach
Pack up the car and stay down there all day
And if it was up to you, I know weâ€™d be out buying stuff
We never even use but ya just canâ€™t get enough

And they come and they go I know
The days seem so long when its cold
As long as were together here tonight
I know itâ€™ll be alright

itâ€™s rainingâ€™ I ainâ€™t complaining
Caz what do you do when you got nothing else to do
And in the end, I got nowhere else Iâ€™d rather be
Then lying here waiting for the rain to stop with you

And they come and they go I know
The days seem so long when its cold
As long as were together here tonight
I know itâ€™ll be alright

Itâ€™s raining outside
sunny as hell on the inside
with you and me baby
Itâ€™s raining outside
Turn off the lights it just as bright
In here tonight
The clouds in my head
All dried up when I see you in my bed
Your blue eyes
Look to me like lighting in the sky

And they come and they go I know
The days seem so long when its cold
As long as were together here tonight
I know itâ€™ll be alright

Itâ€™s raining outside
sunny as hell on the inside
with you and me baby
Itâ€™s raining outside

Turn off the lights it just as bright
In here tonight
The clouds in my head
All dried up when I see you in my bed
Your blue eyes
Look to me like lighting in the sky

And they come and they go I know
The days seem so long when its cold
As long as were together here tonight
I know itâ€™ll be alright
