

# Love Is The Queen

## Seed

We sing a song for all the bad minded people  
Half of your heart might be ruled by the evil  
Still you look for some love in some way  
You are afraid, hear what we say Put the spot on our treasure  
The love goddess, the queen of pleasure  
Even odd is her measure  
A heavy shock cold and hot  
She is like the weather  
Do not block, better rock Show what you adore  
Take what you've got  
Break on through the door  
You cannot find more  
Than what you look for  
Her love shot, increases the score Love is unkind if you step outta line  
She's a cold, she's a warm hearted mother-a-a  
Love is divine if you enter right in time  
You better check it next time Put the spot 'pon the queen  
We want her, she's so hot  
True love goes from one to another  
Get, shot her arrow, choose  
I to play inna drama  
Six kids now call me father For every coin there's a slot  
You miss it once, twice or more  
Then you think you had your lot  
Queen is known to be moody Try again till you got through to her  
Then she'll say, "go on your way  
Now that's all"  
Well, at least you have been heard Love is unkind if you step outta line  
She's a cold, she's a warm hearted mother-a-a  
Love is divine if you enter right in time  
You better check it next time You get hot  
Another trophy that I'm taking home  
You've had a lot  
Can I ever please her majesty?  
You pick a loss Had to feel it, yes, she let me know  
It's not all that has a sparkle that is gold  
Hotter than hot  
love is our treasure  
We have a lot But we've got to pass it over

Don't interrupt  
So come let's go and spread it out  
And you'll see, we can please her over time Love is unkind if you step outta line  
She's a cold, she's a warm hearted mother-a-a  
Love is divine if you enter right in time  
You better check it next time
