

Say What You Will

[Damhnait Doyle](#)

If I were to die today my life would be more then okay
For the time that I spent with you
Its like a dream come true
If this was a last goodbye
No more tears to dry
I would say it one more time
Its been more then fine
How couldve known
How couldve shown Say what you will before its to late
Say what you will mmhmm
Say what you will before its to late
Say what you will mmhmm If you were to walk away
Know you couldnt stay
Think of all the times weve had
All the good and bad How couldve known
How couldve shown Say what you will before its to late
Say what you will mmhmm
Say what you will before its to late
Say what you will mmhmm All the time that I was holding back
Just trying to protect myself
I want you to know
I loved you more then that Say what you will before its to late
Say what you will mmhmm
Say what you will before its to late
Say what you will mmhmm (x2) If I were to die today my life would be more then okay
