

# My Imagination

## Popa Sapka

when you appeared in my imagination  
i had no idea that you would ever be real  
    now you're my life  
    not just some fascination  
and i love you now that you're real  
    now that you're real  
    not my imagination  
someone to love and i do love you dear  
long before love you were here in my memories  
    and i love you now that you're here  
    and now my dream talks to me  
    and fixes my coffee in the morning  
rubs my back when i'm weary, thank you dear  
    i love you now that you're here
