

# The Deceived\*

## Trivium

Disintegration constituents to decompose of the parts  
A malformation utopia systematic unity can't be achieved  
Be numb to all the things  
That force you to frame  
We are the deceived  
Lost in the foreseen  
To wait for aforementioned dreams time will only tell  
Tell that the promised have been failed  
Behold your fellow man through centuries of control  
Adhering to the decrees of a manufactured god
