Let Me

Pat Green

Keep your head there on my shoulder
Let's just lay here for a while, we can hurry when we're older
And girl don't worry about tomorrow that just seems so far away
Luckily me and you, all that we have to do is follow, just followLet me be the one who sets your feet up on a road
Where you've never been, oh and baby then
You can let me take these arms
And wrap you up inside a night that will never end
I wanna be that man if you let me, come on baby let meBaby, leave those candles burning, slide on over here to me
If you run with me girl you know we'll make this world stop turning
Just stop turningLet me be the one who sets your feet up on a road
Where you've never been, oh and baby then
You can let me take these arms
And wrap you up inside a night that will never end
Well, I can be that man if you let me, ohLet me be the one who sets your feet up on a road where you've never been
Yeah, Let me take these arms
And wrap you up inside a night that will never end
I wanna be that man if you let me, come on baby let me
Sweet baby let me
