

# Esta Noche

## The Twilight Singers

Come, little lately  
Get your shine on  
Meet me at the gate  
There's nowhere to go  
I can't be late I feel cool, alive  
Aware that I'm sinking  
The firmament is swallowing me whole  
And I'm on a roll again Come, little lately  
Get your shine on  
Kiss my pretty face  
And let me bleed awhile  
The people want a taste  
So taste me I feel cool, I get around  
My blood, they wanna steal it  
A lonely boy will stand  
When others crawl  
And I can feel them coming at me Esta Noche  
All the lights will breathe the same air  
As I behold the view Come, little lately  
Get your shine on  
Step out of the shade  
And let me breathe awhile  
For God has come to play  
So play me The air, the night  
My blood, you're gonna feel it  
The everlasting love has turned to snow  
And I wanna feel it all over Never, no one  
I wait ever  
I feel this light  
But I conceal No one complete  
This mess, replete  
Perfumed in mud  
Christened by a wave  
A wave, a wave  
[Incomprehensible]  
Neverlasting love
