

# Third Degree

## Dilated Peoples

Punch in  
I punch in this club Elaine  
Punch out just pissed in hurricane  
When this is done things will never be the same  
Peace to mega trend setters along I'm never taggin'  
Word tamer and ah year of the dragon  
In 76 born bomb lyricist  
Ever since I stun the mic and drums I keep 'em crisp  
From that events which occur in dense fog  
Accumulates clouds monsoons and thick smog  
By the way this is protected by the green that I'm smokin'  
With the key to unlock your mind I get it open  
Ajar mad far I kick you out the drivers listen  
Dilated Peoples place in po position  
While suckers steady fishin' I got that big catch  
Lead you to the trap door switch on the latch  
My name is evidence and my mic a strike on any match  
(In fact)  
After this track we'll have em stuck like tacks  
It's the one two three MCs  
Now it's our turn to burn and blaze  
For always  
Now it's our turn to burn and blaze  
For always I keeps it rough and rugged rugged and rough  
A lot of kids think they hard oh my God I call they bluff  
And pull they cards like the king of hearts  
A lot of these cats act well enough to play the parts  
But I see through that's why I stay true and keep it real  
Rhymes worth more than eighty mil  
I blaze records like a circle on magnify  
Precise laser beam lyrics Heru Defari  
(Who you?) Oh me, oh my, these botchy bwoys gon, have ta die  
They can run and hide but Allah know every Sodomite  
That's why righteousness prevails through every verse  
We have to [unverified] down Babylon and live free of curse  
Or free of evil strictly rough rhymes from the people  
Dilated together we bond like seamen  
We breathin' with Reggie White style defense  
Raise your hand if you're tired of the rapper man who don't make sense  
Lyrics of gold rhymes are worth more  
than bill folds  
All you wack MCs give back them styles that you stole  
You owe your dues are questionable  
You're a longtime criminal there's a hit out on you  
It's the one two three MCs  
Now it's our turn to burn and blaze  
For always

Now it's our turn to burn and blaze  
For alwaysIt's the one two three MCs  
Now it's our turn to burn and blaze  
For always  
Now it's our turn to burn and blaze  
For alwaysIt's the one two three MCs  
Now it's our turn to burn and blaze  
For always  
Now it's our turn to burn and blaze  
For alwaysIt's the one two three MCs  
Now it's our turn to burn and blaze  
For always  
Now it's our turn to burn and blaze  
For alwaysI create to devastate, deep space blast off  
Make you salivate like pets of pavlov  
Lines like bar codes but no mark of the beast  
Givin' peace to pioneers of the parks in the eastFrom la at it's finest the name is Iriscience  
Or Mr. Iristyle I hold material like linus  
David to Goliath is me to the mindless  
I hope I haven't been chipped so satellites cant find itBig up to iodine I try to get in touch  
Big up to Defari for comin' through in the clutch  
Lyrically, I pick em apart like coleef  
Prophecy of Garvy manifest salaceeConcoring lion 225th in the line  
So I choose to entertain and uplift the mind  
Dilated never wack crew ready set and tatoo  
Understand that rocker don't throw stone I throw statuesIt's the one two three MCs  
Now it's our turn to burn and blaze  
For always  
Now it's our turn to burn and blaze  
For always
