

Only Boyfriend

Brendan Maclean

I could be your newest boyfriend
Gonna happen, hopefully rather soon
On a blue moon

Pose for questions, and a photo
Push for answers; I don't know, though

My detective, my detective
Lie detective

I will let you down, down
With all that you've found,
I'll let you down

You don't wanna know my track record, baby
I don't wanna know your track record, baby
Everything before all of this
Does not exist

I don't wanna know your track record, baby
We could start a fire; we could start a family
You don't wanna know my track record, baby
I owe you a better start than this.

Maybe I'm your
Only boyfriend
Not forever,
But, a substantial time

I'll keep you in mind, on conclusion, satisfaction,
Pose for questions,
And a photo,
Push for answers,
I don't know though,

My detective, my detective
Lie detective

I will let you down, down
With all that you've found

I'll let you down

You don't wanna know my track record, baby
I don't wanna know your track record, baby
Everything before all of this
Does not exist

I don't wanna know your track record, baby
We could start a fire; we could start a family
You don't wanna know my track record, baby
I owe you a better start than this.

I owe you a better start than this

I owe you a better start than this, oh

I could be your only boyfriend
I could be your only boyfriend
