She Gives Me Life

D-side

She stood smiling in the sun
When I first came along
My heart was beating
Telling me that you're the one
I felt something deep inside
That words cannnot describe
And now I know
There's nothing I can hide
Time stood still for me
And I could not believe
With just one look I'm falling
Baby you're the one for me
Chorus:
She gives me life
She gives me love
And I can see the whole world here
From where I'm standing
This paradise I won't give up
And I just want the whole world here
To know that she gives me....
She could be your brightest day
Your working week, your play
The one to show you

Loving in a special way
Someone always to be there
With love enough to share
And in your hour of need
I'll be the one to care
She gives love so deeply
Changed my life completely
Just one look I'm falling
Baby you're the one for me
Chorus
Everything I want
And everything I need
'coz I can't get enough
Of what she's given me
And as the seasons change

Who knows what will remain
Will I still feel the same
About her?
Chorus(
