

# Well Done Well Done

Kim Hopper

One step then two then a million more  
Sunday morning you walked that old wood floor  
To lift a song to Heaven  
And you let the praises ring  
You let Him use your life  
And heard that choir sing

Well done, well done  
Dear faithful one  
Though the mountains were steep  
Now the race is run  
See the Father smile  
Father and the Son  
Well done, well done  
Dear faithful one

When pain is deep  
And grief is great  
And it's hard just to make it through the day  
Walk onwards solider  
Follow gospel truth  
For that crown and the glory is waiting there for you

And one fine day  
When time is through  
And you journey on to that land brand new  
To shout hallelujah  
As you step through the gates  
And feel the Savior's heart  
And hear that angel choir sing

Well done, well done  
Dear faithful one  
Though the mountains were steep  
Now the race is run  
See the Father smile  
Father and the Son  
Well done, well done  
Dear faithful one

See the father smile  
Father and the Son  
Well done, well done  
Dear faithful one
