Fingerpointing

Koffee Brown

I don't know what you goin' through lately
But you stressin' it and its drivin' me crazy
You won't even make love to me lately
Somebody told you they was havin' my baby
I heard it all I was gettin' my nails done
She was braggin' how your record when platinum
You were crushin' on a leather couch
You were out there trickin' with that chick all up in my house
Did you sleep with her?
Did you sleep with him?
He works at my job
She was just a friend
Saw you at the club
Well I saw you too
Fingerpointing me
Fingerpointing you
She knew it all even talked about your tattoo
Tell me how you gonna say it wasn't 'bout you
Saying how you like to suck on toes
She knew all the things that you know that only I should know
You played the role I was workin' in the studio
Gettin' paid while you gave up the botty yo
Another brotha is gettin' all my time
You was out there trickin' when I thought that shit was all mine
Did you sleep with her?
Did you sleep with him?
He works at my job
She was just a friend
Saw you at the club
Well I saw you too
Fingerpointing me
Fingerpointing you
Did you sleep with her?
Did you sleep with him?
He works at my job
She was just a friend
Saw you at the club
Well I saw you too
Fingerpointing me

Fingerpointing you
Your through with me
I'm through with you
You lied to me
Never lied to you
Stop blamin' me
I'm blamin' you
Stop gamin' me
Who's gamin' who
So you say your through with me
I'm through with you
You lied to me
Never lied to you
Better ask yourself if it really don't matter, baby why keep goin' on?
Did you sleep with her?
Did you sleep with him?
He works at my job
She was just a friend
Saw you at the club
Well I saw you too
Fingerpointing me
Fingerpointing you
Did you sleep with her?
Did you sleep with him?
He works at my job
She was just a friend
Saw you at the club
Well I saw you too
Fingerpointing me
Fingerpointing you
Can't work with you lying and creepin' babe
I can't deal with your cheatin' and leavin' babe
I can't be a fool for your lovin' babe
Save the drama, I'm about to bounce babe
Can't work with you lying and creepin' babe
I can't deal with your cheatin' and leavin' babe
I can't be a fool for your lovin' babe
Save the drama, I'm about to bounce babe
Did you sleep with her?
Did you sleep with him?
He works at my job
She was just a friend
Saw you at the club
Well I saw you too
Fingerpointing me

Fingerpointing you
Did you sleep with her?
Did you sleep with him?
He works at my job
She was just a friend
Saw you at the club
Well I saw you too
