

In the Hospital

Friendly Fires

Doo do do do do
Doo do do do doo do doo do doo do do
Doo do do do do
Doo do do do doo do doo do doo do do Lying alone in the hospital
I can't do anything right
When I'm with someone like you Oh, deep in my heart, yes, I know
Our love's run out
Oh, deep in my heart, yes, I know
I caused this row Nothing is left, only a memory
A glitch in my heart
Until you come back to me Nothing is left, only a memory
A glitch in my heart
'Til you come back to me Doo do do do do
Doo do do do doo do doo do doo do do
Doo do do do do
Doo do do do doo do doo do doo do do Lying alone in the hospital
Don't wanna check myself out
If I'm going home to you Oh, deep in my heart, yes, I know
Your love will soon wear out
Oh, deep in my heart, yes, I know
I think you'll work something out Nothing is left, only a memory
A glitch in my heart
'Til you come back to me Nothing is left, only a memory
A glitch in my heart
'Til you come back to me Nothing is left, only a memory
A glitch in my heart
'Til you come back to me Nothing is left, only a memory
A glitch in my heart
'Til you come back to me Doo do do do do
Doo do do do doo do doo do doo do do
Doo do do do do
Doo do do do doo do doo do doo do do
