In the Hospital

Friendly Fires

Doo do do do do

Doo do do doo do doo do doo do doLying alone in the hospital I can't do anything right

When I'm with someone like youOh, deep in my heart, yes, I know Our love's run out

Oh, deep in my heart, yes, I know I caused this rowNothing is left, only a memory

A glitch in my heart

Until you come back to meNothing is left, only a memory

A glitch in my heart

Til you come back to meDoo do do do do

Doo do do doo do doo do doo do do

Doo do do do do

Doo do do doo do doo do doo do doLying alone in the hospital Don't wanna check myself out

If I'm going home to youOh, deep in my heart, yes, I know

Your love will soon wear out

Oh, deep in my heart, yes, I know

I think you'll work something outNothing is left, only a memory

A glitch in my heart

'Til you come back to meNothing is left, only a memory

A glitch in my heart

'Til you come back to meNothing is left, only a memory

A glitch in my heart

'Til you come back to meNothing is left, only a memory

A glitch in my heart

'Til you come back to meDoo do do do do

Doo do do doo do doo do doo do do

Doo do do do do

Doo do do doo do doo do doo do do
