

Operator

Vanessa Carlton

I could be your operator
I could bring you joy
Something like a freedom fighter
Guns ain't just for boys I heard what you said
You should say it again, cause it's bold
It's getting late
Darling get a move on it, we should go You should never tell your mother
You should give it time
Pour a drink, here, have another
'Cause this is gonna blow your mind Heard what you said
And I say what I mean
We should go, go
Pack up your things
I don't care what you bring
Leave your house for a home You should call your little brother
Tell him to be good
Tell him that you really love him
You don't, but you should I heard what you said, so don't say it again
'Cause it's cold, cold
It's getting late, we should get a move on it
We should go
Go I could be your money maker
You could be my song
Worry bout the others later
We should get a move on
We should go, go
Pack up your things I don't care what you bring
Leave your house for a home
