

# Long Way from OK

## Granger Smith

\*Verse 1\*

Time flies and love does too

Now how'd I ever believe that dreams come true With a girl like that?  
I got it bad and she got gone Now my guess is Texas and Oklahoma boys

Don't mean much more to her than toys

And then she played me way too long So I ran south cross that red river

A thousand miles might help forget her

I need a remedy for a memory

I Need to get back on my feet \*Chorus\*

I've got pockets of pesos, a \$20 dollar bill in my bill fold

Tell me what, tell me what's it gunna take?

And I've got cigars and lonestars and 2 tequila shots in every bar

But I can't, no I can't seem to get away.

Leaving her in Oklahoma didn't help ease the pain

I guess I'm a long way from OK \*Verse 2\*

I know that feelings change

But when it comes to her she takes the cake and eats it too, there's someone new every other day Yeah her green  
eyes disguise alotta things

Hook, line, and sucker they got me

And they still do, I wish I knew how to swim away I'm runnin' low on my defenses

I'm hidin' out down here in Texas

I don't know where I'll go

Maybe Mexico, as long as there's a road \*Chorus\*

I've got pockets of pesos, a \$20 dollar bill in my bill fold

Tell me what, tell me what's it gunna take?

And I've got cigars and lonestars and 2 tequila shots in every bar

But I can't, no I can't seem to get away.

Leaving her in Oklahoma didn't help ease the pain

I guess I'm a long way from OK Yeah I need a remedy for a memory

I need to get back on my feet \*Chorus\*

And I've got pockets of pesos, a \$20 dollar bill in my bill fold

Tell me what, tell me what's it gunna take? Cause I've got cigars and lonestars and 2 tequila shots in every bar

But I can't, no I can't seem to get away.

Leaving her in Oklahoma didn't help ease the pain

I guess I'm a long way from OK A Long way from OK
