# And The World Keeps Spinning

## Glen Campbell

Well, I never thought that I could make it alone
Thought I would die but I seem to carry on
And I thought my life would surely leave
And though almost, I have not ceased to be
And even though I thought I lost everything
Today, I found that the birds still sing in the morning
And the world keeps spinning 'round
And the world keeps spinning 'round
When someone says goodbye, another dream ends
And just before you give up another dream begins
Someone changed their mind, tears fall to the ground
But you know that one man's smile is another's frown
And the table will turn someday, that's how life is
I have no doubt 'cause you know that time don't stand still
All the world keeps spinning 'round
Yes, the world keeps spinning 'round
Dawn will find me here and I think about
One that I thought I couldn't live without
One day she was here, the next day gone
But the love that was never clear was just alone
And how can you lose something you only thought
That you found so you wipe away the tears with a smile
All the world keeps spinning 'round
Yes, the world keeps spinning 'round
All the world keeps spinning 'round
All the world keeps spinning 'round
