Paradox

Hawkwind

The story that I'm telling you
Something that you can do
Ask yourself and try to find the answerSee the signs they're always there
But you know you never care
You're always looking for another reason
Try to reach it's not too far
See it as you really are
Ask yourself, to try and find the answerAlways, always it's the same thing
Try it, try it, you just can't win
Circles, circles spinning round
People, people always bring you
Down and downRound and round, down and down
Round and round, down and down
Round and round, down and down you go
Round and round, down and down
Round and round, down and down
Round and round, down and down you goDown and down, down and down
Down and down, down and down
Down and down, down and down you go
Down and down, down and down
Down and down, down and down
Down and down, down and down you go
