

Maybe That's Something

[Sheryl Crow](#)

We lay around just like gurus
In borrowed robes
And talk about nothing Well, maybe that's something
Maybe that's something You stretch out across a long, long table
Without hesitation
You say, "I'm willing and able" Maybe that's something
Maybe that's one thing more than I've seen
That's something more than nothing You say good, I say you should, will you be there?
Yeah, yeah, yeah
Making miracles is hard work
Most people give up before they happen Maybe that's something
Maybe that's one thing more than I've been
That's something more than nothing
More than nothing, more than nothing Maybe that's something
Maybe that's one thing more than I've seen
That's something more than nothing I've been
More than nothing, more than nothing
More than nothing Nothing
Nothing
Nothing
