

# With You Everyday

Beth Hart

I guess you're late but wasn't invited  
To get out your way I did everything  
But I've been falling in love with you every day

It wasn't easy, I know  
Some of those nights have probably seemed impossible  
I've been falling in love with you every day

If it's unknown, so concern  
I turn back around  
I'm climbing on the walls that I've built  
To keep you out  
And all the bridges you, you tried to burn  
All fallen down  
It's you and me now

Next to you I want to lie  
I'm your shoulder when I need to cry  
I'm so happy that you came  
To ease the darkness and ease the pain  
I've been falling in love with you  
Falling in love with you  
Falling in love with you

Falling in love  
Falling in love with you every day

I've been falling in love with you every day
