

Real 1 (feat. Sevin Duce)

Sevin

For real
What's mobbin lil breh?
Even the half truth is a complete lie you feel me?
C'mon
Holler if you feel me
Ay Ay In the beginning was the word and the word was God
And the word became flesh for a worthy cause
Cuz he loved us to the depths of our dirty drawers
Was wretched but yet He took death for all my worldly flaws
Peep the origin, His story's been properly stored
Within the Gospel and popular Greek historians
Yeah
Betrayed by His people but he ignored it and remained meek
Even the court He's in had to resort to sin
They beat and tortured Him
Tried to sweep the floor with Him
Crucified the Messiah despite Him being a holy man
He resurrected in glory and promised to return
We won't need a DeLorean to see the Lord again
No
He hung high for this dumb guy
I'mma preach the Gospel from Cali to Mumbai
Put wings on His kings
Makes His son's fly
A gang of people say that they can save but become shy
But He's real
Christ is the real one and I know
So there really ain't no debate about it
He's real and we won't be fake about it
It's all love bruh, so really, what do you hate about it?
So really what you hate about it
Christ is the real one and I know
So there really ain't no debate about it
He's real and we won't be fake about it
It's all love bruh, so really, what do you hate about it?
So really what you hate about it
It's a favor to worship a savior who was struck to forgive ya
Faith is working through labor
Grace is love for my neighbor

His shinin sunlight blinder than laser
Finding life and living more than a chaser
Now your mind is eraser
For the sheep he's going deep as a glacier
Feed you meat with the flavor
Bring the heat that'll shake ya
To the street be gracer
We just minor he major
Salvation He cater
Now we servin the waiter
In the storm where he spoke to the waves
Then opened the cave
Then on the third day rose from the grave
For them slaves that was trapped in a maze
He turned their nights into days
This is life not a phase
He deservin' the praise
We were dirty now we sterilized
Jesus took the wheel and I don't care to drive
Made me walk it out when I was paralyzed
So I thank Christ that I could share the prize
Christ is the real one and I know
So there really ain't no debate about it
He's real and we won't be fake about it
It's all love bruh, so really, what do you hate about it?
So really what you hate about it
Christ is the real one and I know
So there really ain't no debate about it
He's real and we won't be fake about it
It's all love bruh, so really, what do you hate about it?
So really what you hate about it
