

Called Love

August Moon

Say something, I later might find an answer I can't seem to define

The questions, the stories, the way you change it on me

The truth is denial, the only thing I can believe

Chorus:
Don't you feel it, don't you feel it, I believed in, in that feeling they call love

Don't you feel it, don't you feel it, I believed in, in that thing that they call love Sometimes I pretend that I'm fine

I wonder how soon it takes to find a

way out of, this coma, I'm buried in denial

I can't seem to find a way

Chorus:
Don't you feel it, don't you feel it, I believed in, in that feeling they call love

Don't you feel it, don't you feel it, I believed in, in that thing that they call love

Bridge:
Tell me where your love is hidden, tell me how to find a way

Tell me that you're never leaving, tell me that you'll stay

Chorus:
Don't you feel it, don't you feel it, I believed in, in that feeling they call love

Don't you feel it, don't you feel it, I believed in, in that thing that they call love
