

# Home

## Tandy

Some people got nothing  
No place of their own  
There's no place -  
Like home  
Like Home  
Like home  
Must have got lucky;  
Found my way back here somehow

Some pretty hard words, we're having right here  
A slight variation from here, to here, to here  
But nobodies thieving here  
Where do we go?

It's hard to keep loving  
It hurts you sometimes  
You'll be better off - down the line  
Comes force like a bus - brings you back

Long time ago, But I still can't recall  
The song that we heard was a Clarion Call  
Voice of an Angel  
Calling you Home

The evening was changing  
The red sky blue  
We stood there watching it  
What could we do?  
Nothing else mattered  
And it don't matter now

Handled the line, yeah this must be the place  
I can tell by the lines and the look on your Face  
I walked in the door and it felt just like home  
It felt just like home  
It felt just like home  
It felt just like home
