Tidal Wave

Interpol

Day by day, whats to go for
Save my feeling, see you when you going for
You are truly at the door
Of some way, admirationOh, what a sweet serenade
And the world is still yours
Oh, there's a flow coming soon
And it rushes me just like aLast Friday I see you in the photo booth
We exchange your name
The screen really takes to you
Will you really make it through
On some great accolades?Oh, what a sweet serenade
And the night is still young for a
There's a flood coming soon
And it rushes me just like a tidal wave
A tidal wave, a tidal wave, a tidal wave
