

# Great Escape

Kevin Rudolf

One night when I was asleep  
I had a dream I could fly  
I felt the cold on my skin  
Then I opened my eyes So I jumped out of bed  
Went down the fire escape  
Now I'm laid out on the street  
I wasn't running away From something I could control  
It was inside of me  
I didn't know where to go  
But I decided to leave I still remember that night  
I've never been the same  
Still wonder if I can fly  
Was it just a dream? I wasn't happy for so long  
So many times I walked away  
Think I was searching for something  
Not knowing what I had to face  
Until I found out the reason  
That's when I made my great escape But now, it's too late to say I'm sorry  
Turn around, turn around, turn around  
Turn around, turn around, turn around  
Turn around, turn around, turn around  
Turn around, turn around, turn around  
Turn around, turn around, turn around One night when I couldn't sleep  
I heard a knock at the door  
She put her hand on me slow  
Then she opened my heart I asked myself is this real?  
I've never felt this way  
She said I need to escape  
I said I know a place So she laid down on my bed  
I said confide in me  
She looked deep into my eyes  
And she invited me She must lived for her sleep  
She never said goodbye  
Her angels took her away  
I guess now she can fly I wasn't happy for so long  
So many times I walked away  
Think I was searching for something  
Not knowing what I had to face  
Until I found out the reason

That's when I made my great escapeBut now, it's too late to say I'm sorry

Turn around, turn around, turn around

Turn around, turn around, turn around

Turn around, turn around, turn around

Turn around, turn around, turn around

Turn around, turn around, turn aroundI wasn't happy for so long

So many times I walked away

I think I was searching for something

Not knowing what I had to face

Until I found out the reason

That's when I made my great escapeBut now, it's too late to say I'm sorryThis is my song, these are my words

This is my story

This is my song, these are my wordsWhoa, whoa, whoa, whoa, whoa

Whoa, whoa, whoa

This is my song, this is my story

These are my words

Whoa, whoa, whoa, whoa, whoaThis is my song, these are my words

This is my story

This is my song, these are my words
