Forever

Red

I try to run, I try to hide
From a voice that couldn't satisfy
That was me, always needing more
But letting go of all I had before
Cause it feels like the end
A wound that I can't mend
I just can't fight any longerYou waited 'til I sobered
You came when You knew that
The game was over
I didn't even want to be foundBut you chased me down and
Broke in just when
I was done believing
Spun me round so close now
I can feel you breathing
Sunlight burns inside and
I feel so alive and
Help me now, tell me how
How can this last forever, foreverI ignored the signs, opened every door
But I couldn't find what I searched for
I try to fight but I turn and run
Every move I make is the wrong one
You patiently wait for my next mistake
I know it won't be much longerYou waited 'til I sobered
You came when You knew that
The game was over
I didn't even want to be foundBut you chased me down and
Broke in just when
I was done believing
Spun me round so close now
I can feel you breathing
Sunlight burns inside and
I feel so alive and
Help me now, tell me how
How can this last foreverYou gave me so much more
That I could ever ask for
But I turned and followed
A road that left me hollow
And still you waited for me
To come back home

You brought me home...You chased me down and broke in just when
I was done believing
Spun me round so close now
I can feel you breathing
Sunlight burns inside and
I feel so alive and
Help me now, tell me how
How can this last forever, forever
