Sky Blues

Fred P

I was sittin' on a plane, I was lookin' at the dreary day
I saw somebody, she was sittin' just an aisle away
She was a first class lady and I knew that she looked refined
My heart started thumpin' louder than the engine whine
I got the sky blues, I'm up in the air
Runnin' from a lady who just don't care
And all I wanna do is get down to earth with you
Oo, I got the sky blues
Oo, I got the sky blues
Well, I sat down beside her and I told her I was feeling blue
I said, "My girl don't want me and it's breaking my heart in two"
Well, I felt so bad that I didn't even stick around, I said
"We may be flying but heart's draggin' on the ground"
