

So Right

The Lox

Catch me in the dirt [unverified]
In the [unverified] porch burning out
Head across seas 'bout to turn it out
Coming back home to a furnish house
We three deep, What? And we ain't get no sleep
We on the next flight, 25 a night, damn right
Plan is to keep the fam tight
Copping the Vipe and I ain't stopping at the light
Can't see the dice, ice to bright
Heard he with a pretty chick, you a idiot
Get a record deal and not take it serious
Plan to make hits for a long period
Hell of a living, shit being on television
Ball I'm-a score every time there's an inning
I once had had a mill and it's just the beginning
Everybody want a pool, I need an ocean to swim in
Your fault, so right
(So right)
It makes me want more
(It makes me want more)
Your fault, so tight
(So tight)
You need an encore
(Give me an encore)
Yeah, yeah, yeah
What up, yo, hey yo, hey yo
Hey yo, before I rock a show, I pray to God in a huddle
Sheek laid back, you know, I'm 'bout to bubble
All y'all hate that, tryin' to keep me in trouble
We take things serious, y'all do it for fun
'Cuz when we hit we stick like noodles
When then done
International despite thee, West coast beef
I blew it down on Keenen Ivory Wayans
Got the all with a grain for the pain
So if we conflict you get all in yo brain
You gonna play this like little kids play hoolahoop
From day 'til it's dark with the fat man scoop
Now you spook, you heard Lox about to drop

Pop the top, we got this in a can like Pringle
Heard one song, now you changing up your single
While I mingle, Sheek the black man jingle
In a club with two mommies, that's bilingual

Your fault, so right

(So right)

It makes me want more
(It makes me want more)

Your fault, so tight

(So tight)

You need an encore
(Give me an encore)

Yeah, wha, wha?

Yo, yo, yo, yo

Now what y'all think we here for? Aight then
Get this money, keep it tightened, right when
All y'all thought y'all was coming to get us
'Cuz we lost B.I.G. but he still wit us
Fooled y'all ass, y'all tools don't blast
All we do is make hot songs and use y'all cash
I hang my plaques in the bathroom

'Cuz I'm sill thinking 'bout making a hit

While I'm taking a shit

Playa Haters be scraping the 6

For no reason, that don't even make no sense
I'm happy they made them with bullet proof glass tints
If you want beef, see you at the Bad Boy cook out
Get a new look out, pull your black book out
Who you know pal for enough to distribute?

2.5 and that's just the tribute

Anything involved with Benji's we with that
With the good comes the bad never forget that

Your fault, so right

(So right)

It makes me want more
(It makes me want more)

Your fault, so tight

(So tight)

You need an encore
(Give me an encore)

Your fault, so right

(So right)

It makes me want more
(It makes me want more)

Your fault, so tight

(So tight)
You need an encore
(Give me an encore)
Your fault, so right
(So right)
It makes me want more
(It makes me want more)
Your fault, so tight
(So tight)
You need an encore
(Give me an encore)
...
