

# Something Is Not Right With Me

## Cold War Kids

Something is not right with me  
Something is not right with me  
Something is not right with me  
How was I supposed to know? Something is not right with me  
Something is not right with me  
Something is not right with me  
Trying not to let it show I tried to call you collect, you said you would not accept  
Your friends are laughing 'cause nobody uses pay phones  
Gave me quarters to select so I'm on the jukebox again  
People dancing, should've never chose 'Girlfriend' Something is not right with me  
Something is not right with me  
Something is not right with me  
How was I supposed to know? Something is not right with me  
Something is not right with me  
Something is not right with me  
I'm trying not to let it show Crash into the people who're sleeping late into the evening  
Reach behind they can hardly find their spines  
Crash into the people who're sleeping late into the evening  
Reach behind they can hardly find their spines Crash into the people who're sleeping late into the evening  
Reach behind they can hardly find their spines You said did you lack a cause, I try to feel about that  
It was smoky but it died in your front yard  
You find out who's dating who but, but when it comes to you  
One is pullin' us in different ways in the mind Something is not right with me  
Something is not right with me  
Something is not right with me  
How was I supposed to know? Something is not right with me  
Something is not right with me  
Something is not right with me  
I'm trying not to let it show
