The Last Time

Asia

If you want it
Don't look at my face
It's the last time
It's not forever
The dust in the wind
It's the last time
One world, one dream
The stars in your hand
No light, no life
The scars are made by man
Heaven can't help you now
In this madness
Take it while you can
It's the last time
This holy water
Running away
For the last time
One world, one dream
The stars in your hand
No light, no life
So heal the scars of man
One chance, this night
To shine on this land

This time, with pride
Give back now while you can
All these fields, that once were green
Have turned to smoke and steel
The sun will fall, and the last moon rise
Don't turn this tide away
If you want it
So start it again
It's the last time
(the scars were made by man)
It's not forever
The dust is the wind
For the last time
One world, one dream
The stars in your hand

No light, no life
So heal the scars of man
One chance, this night
To shine on this land
This time, with pride
Give back now while you can
