You Find a Way

Graham Colton

Iâ€™m writing you for the hundredth time cuz ninety nine I threw away
And in my mind a thousand times Iâ€™ve said everything I wanna say
Iâ€™ve said everything I wanna say

But you find a way to keep me hanging on
You find a way to make everything go wrong
Itâ€™s the way you lose me
Say you choose me
Then pass me by like you never knew me
You find a way to lead me on

I change my mind a thousand times but circumstances stay the same
I told you no an hour ago
Iâ€™ve said everything I wanna say
Iâ€™ve said everything I need to say

But you find a way to keep me hanging on
You find a way to make everything go wrong
Itâ€™s the way you lose me
Say you choose me
Then pass me by like you never knew me
Til I find a way of moving on

And when I think Iâ€™ve figured out
Iâ€™ve found a way to live without
You come around and everythingâ€™s all wrong
Iâ€™m waking up alone at night remembering when the time was right
Youâ€™re only here a moment then youâ€™re gone

You find a way to keep me hanging on
You find a way to make everything go wrong
Itâ€™s the way you lose me
Say you choose me
Then pass me by like you never knew me
You find a way to lead me on

Til I find a way of moving on
You find a way you lead me on
Iâ€™ll find a way
Iâ€™m movin on
