Put Me On

Diamond Rings

Beneath the sliver of the autumn moon,
between the pigeons, & the northern loons.
Crossing the river to the valley's side.
Driving together in your fathers ride.
Come on. Put me on, put me on. x4
Roll down the window & let down your hair.
Turn up the music in the cool night air.
The engines revving to the heart beat blast
& all I wanna do is make it last.
Come on. Put me on, put me on. x4
Hold me in your arms until I'm blacker than blue.
& if you wanna lay down, I'll lay down next to you.

I can take you places you thought you never knew.
Baby, we can will this dream into coming true.
It's for you.
No matter what I try the best I can.
& because of you, I am who I am.
So take my hand & get behind the wheel,
& let me give you everything I feel.
Come on. Put me on, put me on. x4
Hold me in your arms until I'm blacker than blue.
& if you wanna lay down, I'll lay down next to you.
I can take you places you thought you never knew.
Baby, we can will this dream into coming true.
It's for you.
