Live Another Day

The Veer Union

I never thought it would be this way.
Now I know that its up to me.
Just hold on, I'm thinking
Its time for change.You will live another day.
It's worth fighting.
You will learn to live again.
Just keep trying.
I'll take you in when you're broken.
And you'll rise again, from the far end.
You will live another day.You have lost your reality.
Now I know that its hard to me.
Just hold on, I'm thinking
Its time for change.You will live another day.
It's worth fighting.
You will learn to live again.
Just keep trying.I'll take you in when you're broken.
And you'll rise again, from the far end.
You will live another day.Before you wash away.
I shed some light so you can say.
You know we're near the end.
Cause you'll have to live again.
Now I know that its hard to me.You will live another day.
It's worth fighting.
You will learn to live again.
Just keep trying.
I'll take you in when you're broken.
And you'll rise again, from the far end.
You will live another day.You know we're near the end.
Cause you'll have to live again.
