When I Get Lonely

David Ball

Your Daddy called you down to the farm
Said "He needed the crop in the barn yesterday"
Two days gone six days there
All I do is sit and stare at a TVWell I ain't done nothin' yet
But baby don't forget how I get when I get lonely
Well I ain't strayed a little bit
'Cause baby you're still it, but I'm gettin' lonelyYour sister kept you busy all last week
Movin' her back to Albuquerque New Mexico
Your girlfriend called the week before that
Said, "She was sad and didn't want to be all alone"Well I ain't done nothin' yet
But baby don't forget how I get when I get lonely
Well I ain't strayed a little bit
'Cause baby you're still it, but I'm gettin' lonelyI painted the house and I painted the town
Just keepin' busy till you get back around to lovin' me
It's Friday night the phone just rang
It's that girl ole' what's her name to say she's freeWell I ain't done nothin' yet
But baby don't forget how I get when I get lonely
Well I ain't strayed a little bit
'Cause baby you're still it, but I'm gettin' lonelyI'm gettin' lonely
Don't let me get lonely
