

Just Out of Reach

Mayday Parade

I'm fine
The world can wait a little while
And I'll remember its face
So kind for giving me the privilege to say, whatever happens next is up to me
(Float in ecstasy with you next to me now)
Drop everything come back to me
When you play for the long run, you play for the team
(We're all coming home) I'm fine,
And I can handle myself
The world's an addict with a vice up on the shelf
Glaring there and barely out of reach
Drop everything come back to me
(Float in ecstasy with you next to me now)
When you play for the long run, you play for the team
(We're all coming home) When you talk among friends
You'd kill for a reason to be somewhere else, anywhere
I didn't mind, you weren't there
You were just out of reach I won't lie,
I wore your name for awhile until it started to burn in my head
Well you once said
If home was a place you'd do all that you could not to stay
Drop everything come back to me
(Float in ecstasy with you next to me now)
When you play for the long run, you play for the team
(Float in ecstasy, float in ecstasy) When you talk among friends
You'd kill for a reason to be somewhere else, anywhere
I didn't mind, you weren't there
Just out of reach
Just out of reach
Just out of reach
Just out of reach
Just out of reach
Just out of reach
