

# Once In a While

## Louis Armstrong and His Hot Five and Hot Seven

When you close your eyes  
Do you like what you see inside your mind?  
And do you like to dream about the stars above  
Once in a while?  
Don't go to the other side  
For nothing at all  
And better make it worth your while  
I'm gonna break down that wall  
Gonna take the fall  
'Cause when you close your eyes  
Do you like what you see inside your mind?  
And do you like to dream about the stars above  
Once in a while, once in a while?  
Don't go to the other side  
As you might mess up that hair  
Just wait you might change your mind  
You think that people might care  
About your hair anyway?  
When you close your eyes  
Do you like what you see inside your mind?  
And do you like to dream about the stars above  
Once in a while, once in a while?  
Don't go to the other side  
Just get down on your knees  
And show me what you are made of  
I'm begging you please  
Just please go away  
When you close your eyes  
Do you like what you see inside your mind?  
And do you like to dream about the stars above  
Once in a while?  
When you close your eyes  
Do you like what you see inside your mind?  
And do you like to dream about the stars above  
Once in a while?  
Don't go to the other side  
For once in a while, once in a while  
Don't go to the other side  
For once in a while, once in a while
